Update #01

Version: 8.7 – Update 01
Release Date: 05/2025
Released by: Yunex GmbH

	Type	Description
X	**Hotfix release**	Important Fixes - Immediate installation is recommended!
	Regular Update	Minor fixes/improvements - Installation recommended
	New Major Release	New major features – Installation optional, but recommended

Content

- This is Update 01 for the major version Yutraffic Office 8.7. Office 8.7 – Update 01 provides bug fixes but no new functionality or features.
- The installation file of Office 8.7 – Update 01 contains a full setup and can therefore also be used for first-time installations. Update 01 is a full replacement of the initially released version.
- The usage of Yutraffic Office 8.7 and correspondingly of Update 01 requires a license update.
- Yutraffic Office 8.7 is compatible with Yutraffic Symphony 1.0, Yutraffic VD Server 2.0 and Yutraffic sX up to and including version 3.6.
- General information: product brochure and Yunex Traffic website.

Installation Hints

Please run the corresponding installation program. More detailed information can be found in *Installation_Office_en.pdf*.

New Features

Office 8.7 – Update 01 provides bug fixes, but no new functionality or features. For the feature set of the initial version Office 8.7, we refer to the respective [release notes](#).

Fixed Bugs

Office 8.7 – Update 01 provides important fixes for the Topology Editor, which was initially released with Office 8.7. Installation of the update is recommended.

Compatibility

- Currently (as of May 2025), Office 8.7 – Update 01 is only released for Symphony 1.0. A possible later release for Scala 8.1.1 and 8.3.1 will be communicated separately.
- In existing TE Server installations, Office 8.5 and 8.6 can be replaced by Office 8.7 – Update 01.
  Please note: It is not possible to mix different versions of Office within the same TE server system.
- With Office 8.7, *.sop files can be exported as *current version* and imported into Office 8.4, 8.5 and 8.6.

Maintenance

Updates (e.g. hotfixes or service packs) are available on the [Traffic Tools website](#). We recommend checking regularly for new service packs, hotfixes or product releases. This also applies to externally sourced 3rd party software (e.g. HASP dongle drivers or Microsoft components).

Training

Training courses can be booked via the [Yunex Traffic Academy](#). In particular, product-related courses on Yutraffic Office are available.
