Release Notes
Yutraffic Office Suite 8.7
Update #02

Version: 8.7 – Update 02
Release Date: 10/2025
Released by: Yunex GmbH

	Type	Description
	Hotfix release	Important Fixes - Immediate installation is recommended!
X	**Regular Update**	Minor fixes/improvements - Installation recommended
	New Major Release	New major features – Installation optional, but recommended

Content

- This is Update 02 for the major version Yutraffic Office 8.7. Office 8.7 – Update 02 provides bug fixes, functional improvements and new features.
- The installation file of Office 8.7 – Update 02 contains a full setup and can therefore also be used for first-time installations.
- The usage of Office 8.7 – Update 02 requires the license for the major version Office 8.7.
- Yutraffic Office 8.7 is compatible with Yutraffic Symphony 1.0, Scala 8.3.1, Scala 8.1.1, Yutraffic VD Server 2.0 and Yutraffic sX up to and including version 3.6.
- General information: product brochure and Yunex Traffic website.

Installation Hints

Please run the corresponding installation program. More detailed information can be found in *Installation_Office_en.pdf*.

New Features

New Integrated Volume Flow Editor

- The volume flow editor is now integrated into the new topology editor.
- Traffic data is entered via the unified modern UI and visualized within the topology editor.
- The new volume flow editor is fully compatible with pre-existing data created with its predecessor.
- The volume flow values are still stored in the intersection but can be assigned to an intersection version directly from the editor.
  Please note: To export the volume flow values with the SOP export of an intersection version, the option to also export unversioned data must be selected.

Improved Topology Editor

- Multiple functional extensions compared to the initially released version, e.g.:
  - Scaled print-out of the layout plan as *.pdf with customizable scala and image excerpt
  - Customizable size of visualized objects
  - Background images via WMS (Web Map Service)
  - Creation of reference lines via additional shortcut on entering lanes
  - Support of unsignalized intersections and roundabouts
- Improved UX based on feedback gathered from the initial release.
  - Performance of opening and closing
  - UI and usability in general
  - Validation messages and hints

General Improvements

- New optional confirmation dialog for closing Office.
  Settings – Options – Feature Toggles – Show close dialog
- Improved dialog when importing *.sop files with unknown components.
- Improved dialog for converting intersections from signalized to unsignalized.

For the feature set of previously released versions, please refer to the respective release note:

- [Office 8.7 – initial release](#)
- [Office 8.7 – Update01](#)

Fixed Bugs

Office

CAS-406220-S1K9W7 - Neuer Topo-Editor stürzt beim Editieren des Maßstabs ab
CAS-405154-S7T2T1 - Intersection Version in Scala Prague can't be opened
CAS-405320-V1S0R8 - Topo-Editor stürzt beim Übernehmen ab und übernimmt nur teilweise
CAS-404242-B2W0T5 - Feindlichkeits- und Zwischenzeitmatrix können nicht geöffnet werden
CAS-403701-F0L3G4 - Planungsdruckdatei lässt sich nicht öffnen
CAS-399563-L1S5V7 - Prüfung von ZZM&FM verschwunden
CAS-398713-L6L4V8 - Intersection 1078 in Office - every intersection version throws an error
CAS-384919-Q5K1X0 - Yutraffic Office 8.7 - Assigment of Signal programs
CAS-377072-F8T3C9 - ZZ-Matrix geprüft Markierung
CAS-374891-G2H4C6 - Unspezifischer Office Freeze - Office freezes by sop6 export
CAS-411155-D1X5N5 - Fehler bei der Anpassung von O-Nr. oder Lfd.Nr. bei Detektoren in Office
CAS-411422-R3M1N5 - OCIT 3 im Workflow Status Bestand
CAS-418447-C5W9X6 - Zuordnung Detektoren Signalgruppen neuer Topologie Editor
CAS-418715-X6P5S5 - PDOC - Lane Names are not updated in the docx Print-out

Compatibility

- In existing TE Server installations, Office 8.5 and 8.6 can be replaced by Office 8.7 – Update 02.
  Please note: It is not possible to mix different versions of Office within the same TE server system.
- With Office 8.7, *.sop files can be exported as *current version* and imported into Office 8.4, 8.5 and 8.6.
  Please note: When exporting the *.sop file, please make sure that the controller and TA components are also available in the older Office versions.

Maintenance

Updates (e.g. hotfixes or service packs) are available on the [Traffic Tools website](). We recommend checking regularly for new service packs, hotfixes or product releases. This also applies to externally sourced 3rd party software (e.g. HASP dongle drivers or Microsoft components).

Training

Training courses can be booked via the [Yunex Traffic Academy](#). In particular, product-related courses on Yutraffic Office are available.
