| | | | | ✓ | | | | |

3. Affected Components / Betroffene Komponenten

| Component / Komponente | Version after Update / Version nach Update | Build Label / Git Tag |
|------------------------|--|-----------------------|
| BaseCentralApp | 8.3.0.10 | concert-image 1.1.60 |

4. Installation Hints / Installationshinweise

What will be installed with this release? / Was wird mit dieser Version installiert?

This hotfix contains product improvements described in chapter 5 and approaches customer issues listed in chapter 6

Which releases have to be installed before? / Welche Versionen müssen vorher installiert werden?

BaseCentralApp_V8.3.0.7

Installation Hints / Installationshinweise

Please use the Hotfix-Deployer to install the hotfix on the CoreServer and on the Motion Server.

Please do not use the Hotfix Deployer for updating the hosts 'as' and 'cs', they are updated automatically via deployment pipeline.

5. New Features / Neue Leistungsmerkmale

Which new features are included? / Welche neuen Leistungsmerkmale sind enthalten?

- Update WDF to latest version 2.2 with new improvements like:
 - improved 3rd level window management
 - improved quality of translations
 - implemented returning focus to other dialog after closing a detail dialog
 - improved web client performance after solving a cache issue
 - improved performance of Concert's web client by solving a cache issue
 - solved issue with configuration button at the bottom right corner which did not work properly without selection in the list view
 - solved issue with MixedInput cells in tables using bitmaps not shown in the UI
 - improved the update of the the coordinates displayed in the GIS based on the position of the mouse pointer
 - improvements in Dayplan Editor related to error occuring during editing the date in date picker
 - improved visibility of combo boxes while typing into them

6. Corrected Faults / Korrigierte Fehler (OHD)

For more details refer to customerportal.yunextraffic.com

CTB-2948: CAS-120066-K2W0C5 Configured streetlist not appearing in Concert UI
→ Improves populations of streetlists in Concert UI

7. Known Issues / Bekannte Probleme

- None

8. Notes / Anmerkungen

- None
